

I
Hurricane Bob wipes out half of your fish population. None of your fish reproduce this round.

I
In response to recent scientific reports showing overfishing in your local waters, a fishing moratorium is put in place by the government. Each person catches only two fish this round.

I
An El Nino weather pattern causes major storms. Half of the fish population dies.

I
A tanker ship sinks and causes a massive oil spill. No fishing is allowed this round (the government pays out emergency funds to keep everyone alive). Half of your fish population dies. No fish reproduce this round.

I
A red tide kills off much of the fish population. Each person catches only 2 orange fish (no yellow) this round.

B
You captain an ocean trawler, which has some limits. You may catch up to 6 fish, any color, each round.

B
You are a subsistence fisher (you fish only to feed your family). You may catch 2 fish, any color, each round.

B
You are a line fisher (you catch with a long line with multiple hooks). You may catch up to 3 fish, but only 1 yellow fish, each round.

B
You captain an ocean trawler, which has some limits. You may catch up to 6 fish, any color, each round.

A
You captain an ocean trawler, which has no fishing limits. Catch as many fish as you want.
